SARAH DELEPPO

SOFTWARE DEVELOPMENT AND ENGINEERING

RESUME OBJECTIVE

Currently my focus is on full-stack development, as I love seeing all the pieces of the puzzle come together to create a cohesive end-product tailored to my client's needs.

EXPERIENCE

SOFTWARE ENGINEER IN TEST

Ocean State Job Lot. June 2021 - Present

- Formulating test scenarios, contributing to planning and design of new e-commerce website, updated testing scripts to reflect evolution of website
- Collaborating with developers and product owners contributing to planning and design

SOFTWARE ENGINEER

Solo Development prev. known as OctoSloths Productions. Sep 2014 - present

- Deployed two mobile applications to the Google Play Store developed in C# using Unity5
- Designed and implemented full stack CRUD projects using React, Spring Framework, MongoDB, Bootstrap, and more to develop client facing applications utilizing a RESTful API

SOFTWARE QUALITY ASSURANCE ENGINEER

UserTesting. May 2021 – Aug 2021 (4 months +)

- Conducted manual testing to ensure high quality of software development and deployment for a variety of products.
- Duties include real-time communication analyzing software, systems, and mitigating risk/prevention of software issues for the end user

SOFTWARE ENGINEER

Massive Hawk Games. Jan 2015 - 2016 (2 years)

- Developed a variety of video games alongside teammates in multi-developer, Agile-based settings using C# in Unity 5
- Participated and won several game jams in which games were hosted online for userbase

TEST AUTOMATION ENGINEERING INTERN

Cegment, Inc. Jul 2012 - Sep 2012 (3 months)

- Bug fixing and automated test harness for FASFA.com and college's Net Price Calculators using Selenium and Python 2.6
